

SECTION 1: CHEMICAL PRODUCT and COMPANY IDENTIFICATION

Catalog No.
L12693

Product Name: 4-Hydroxy-3-nitrophenylarsonic acid, 98%
Synonyms: 2-Nitrophenol-4-arsonic acid, 4-Hydroxy-3-nitrobenzenearsonic acid

Manufacturer/Supplier Name: Alfa Aesar - A Johnson Matthey Company
Address: 30 Bond St.
Ward Hill, MA 01835

Business Phone: 978-521-6300
Business Fax: 978-521-6350

For information in North America, call: 978-521-6300

CHEMTREC Numbers:
For emergencies in the US, call CHEMTREC: 800-424-9300
For emergencies outside US, call INTERNATIONAL: (703)527-3887
For Nonemergency, call: (800)262-8200

SECTION 2 : COMPOSITION, INFORMATION ON INGREDIENTS

Catalog No. L12693

Chemical Name 4-Hydroxy-3-nitrophenylarsonic acid
CAS# 121-19-7
% Weight (Typical) 98

SECTION 3 : HAZARDS IDENTIFICATION

Catalog No. L12693

Emergency Overview: Toxic. Mutation data. Environmental Hazard.

4-Hydroxy-3-nitrophenylarsonic acid:

Route of Exposure: Skin. Ingestion.

Potential Health Effects:

Eye Contact: May cause eye irritation.

Skin Contact: May cause skin irritation.

Skin Absorption: May be harmful if absorbed through the skin.

Inhalation: No data

Ingestion: Toxic by ingestion.

Target Organs: Skin. G.I. Tract. Liver. Kidney.

Signs/Symptoms: Acute arsenic poisoning (from ingestion) results in irritation of the stomach and intestines, with nausea, vomiting and diarrhoea. In severe cases, collapse and shock may occur with weak, rapid pulse, cold sweats, coma and death. Chronic exposure (by ingestion or inhalation) may cause loss of appetite, cramps, nausea, constipation or diarrhoea. Liver damage may occur, with jaundice. Other symptoms of chronic exposure to arsenic compounds may include skin itching, pigmentation and possible cancerous changes.

SECTION 4 : FIRST AID MEASURES**Catalog No. L12693**

Eye Contact:	Immediately flush eyes with plenty of water for at least 20 minutes. Assure adequate flushing of the eyes by separating the eyelids with fingers. Get immediate medical attention if irritation persists, or symptoms of overexposure become apparent.
Skin Contact:	Immediately wash skin with plenty of water for at least 20 minutes, while removing contaminated clothing and shoes. Get medical attention especially, if irritation develops, persists, or symptoms of overexposure become apparent.
Inhalation:	Remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Keep warm. Get immediate medical attention.
Ingestion:	If swallowed, call a physician or poison control center immediately. Never give anything by mouth to an unconscious person. Do not induce vomiting unless instructed by medical personnel. Get medical attention.

SECTION 5 : FIRE FIGHTING MEASURES**Catalog No. L12693**

Flash Point:	No data
Extinguishing Media:	Use dry powder or carbon dioxide when fighting a fire involving this material.
Unsuitable Media:	Water extinguishers are not recommended.
Protective Equipment:	As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH (approved or equivalent) and full protective gear.

[To Top of page](#)

SECTION 6 : ACCIDENTAL RELEASE MEASURES**Catalog No. L12693**

Personal Precautions:	Use proper personal protective equipment as listed in section 8.
Spill Cleanup Measures:	Clean up spills immediately, observing precautions in the Protective Equipment section. Sweep up or absorb material, then place into a suitable clean, dry, closed container. Avoid generating dusty conditions. Refer to section 13 for disposal requirements.
Environmental Precautions:	Do not allow material to enter drains or streams.

[To Top of page](#)

SECTION 7 : HANDLING and STORAGE**Catalog No. L12693**

Handling:	This product should be handled only by, or under the close supervision of, those properly qualified in the handling and use of potentially hazardous chemicals, who should take into account the fire, health and chemical hazard data. It should always be handled in an efficient fume hood or equivalent system. The user should consider that the toxicological and physiological properties of many compounds are not yet well determined and that new hazardous products may arise from reactions between chemicals. Care should be taken to prevent any chemical from coming into contact with the skin or eyes and from contaminating personal clothing.
Storage:	Store in a cool, dry, well ventilated area away from sources of heat and incompatible substances. Keep container tightly closed when not in use.
Hygiene Practices:	Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling dust.

[To Top of page](#)

SECTION 8 : EXPOSURE CONTROLS, PERSONAL PROTECTION**Catalog No. L12693**

Engineering Controls:	Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.
Skin Protection Description:	Wear suitable protective clothing to prevent contact with skin.
Hand Protection Description:	Wear appropriate protective gloves. Consult glove manufacturers for glove permeability data.
Eye/Face Protection:	Wear appropriate protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye and face protection regulation, or the European standard EN 166.
Respiratory Protection:	A NIOSH approved air-purifying respirator with an appropriate cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited to airborne concentrations that are typically within 10 times the exposure limit. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection. A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirators use.
Other Protective:	Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

SECTION 9 : PHYSICAL and CHEMICAL PROPERTIES**Catalog No. L12693**

Physical State/Appearance:	Solid
Color:	White
Flash Point:	No data
Boiling Point:	No data
Melting Point:	>300°C (572°F)
Solubility in Water:	Slightly soluble.
Density:	No data
Molecular Formula:	C ₆ H ₆ AsNO ₆
Molecular Weight:	263.04

[To Top of page](#)

SECTION 10 : STABILITY and REACTIVITY**Catalog No. L12693**

Conditions to Avoid:	High temperatures, flames and sparks.
Incompatibilities with Other Materials:	Strong oxidizing agents. Strong reducing agents.
Possible Decomposition Product:	Hydrogen cyanide, oxides of nitrogen.

SECTION 11 : TOXICOLOGICAL INFORMATIONCatalog No. L12693

4-Hydroxy-3-nitrophenylarsonic acid :

RTECS Number:	CY5250000
Eye Effect:	No data reported in the cited references as of the revision date.
Skin Effects:	No data reported in the cited references as of the revision date.
Ingestion Effects:	Oral - rat LD50: 81 mg/kg (RTECS); Oral - mouse LD50: 244 mg/kg (RTECS)
Inhalation Effects:	No data reported in the cited references as of the revision date.
Chronic Ingestion Effects:	Oral - rat TDLo: 11200 mg/kg/14D-C Related to Chronic Data - death; Oral -rat TDLo: 2647 mg/kg/13W-C Behavioral - food intake (animal) Related to Chronic Data - death (RTECS); Oral -mouse TDLo: 8736 mg/kg/13W-C Lungs, Thorax, or Respiration - bronchiolar dilation Liver - changes in liver weight Related to Chronic Data - death; Oral -mouse TDLo: 1680 mg/kg/14D-C Related to Chronic Data - death (RTECS); Oral -pig TDLo: 5625 mg/kg/30D-C Spinal Cord - other degenerative changes Peripheral Nerve and Sensation - spastic paralysis with or without sensory change Behavioral - convulsions or effect on seizure threshold (RTECS)
Carcinogenicity:	Tumorigenic - equivocal tumorigenic agent by RTECS criteria.
Mutagenicity:	Mutation data reported. (RTECS).
Other Toxicological Information:	Intraperitoneal - rat LD50: 66 mg/kg Behavioral - muscle weakness Gastrointestinal - other changes Kidney, Ureter, Bladder - interstitial nephritis

SECTION 12 : ECOLOGICAL INFORMATIONCatalog No. L12693

Ecotoxicity:	Information given for arsenic: LC50 Daphnia magna 47 mg/L/48H. EC50 Pimephales promelas 141-144 mg/L/96H. Harmful to aquatic organisms.
Bioaccumulation:	Observed to bioaccumulate and/or bioconcentrate in aquatic organisms and decreasingly along the foodchain.
Biodegradation:	Expected to be not biodegradable in soil and water. Micro-organisms are observed to biomethylate arsenic compounds.
Environmental Stability:	Expected to be persistent in the environment.

[To Top of page](#)

SECTION 13 : DISPOSAL CONSIDERATIONSCatalog No. L12693

Waste Disposal:	Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and/or state and local guidelines, by a licensed disposal company.

SECTION 14 : TRANSPORT INFORMATIONCatalog No. L12693

DOT Shipping Name:	Organoarsenic compound, n.o.s.
DOT Hazard Class:	6.1
DOT Identification Number:	UN3280
DOT Packing Group:	II
DOT Subpart E Labeling Requirement:	6.1

4-Hydroxy-3-nitrophenylarsonic acid :

TSCA 8(b): Inventory Status: Listed on the TSCA inventory.

TSCA 12(b): Export Notification None of the chemicals are listed under TSCA Section 12b.

Section 112(r): Clean Air Act CAS# 121-19-7 listed as ** no name ** is listed as a hazardous air pollutant (HAP). This material does not contain any Class 1 Ozone depleters. This material does not contain any Class 2 Ozone depleters.

Section 116.4 part 117: Clean Water Act None of the chemicals in this product are listed as Hazardous Substances under the CWA. CAS# 121-19-7 is listed as a Priority Pollutant under the Clean Water Act. CAS# 121-19-7 is listed as a Toxic Pollutant under the Clean Water Act.

State: 4-Hydroxy-3-nitrobenzenearsoni can be found on the following state right to know lists: California, (listed as ** no name **), California, (listed as ** no name **), New Jersey, (listed as ** no name **), Florida, (listed as ** no name **), Pennsylvania, (listed as ** no name **), Pennsylvania, (listed as ** no name **), Minnesota, (listed as ** no name **), Minnesota, (listed as ** no name **), Massachusetts, (listed as ** no name **). The following statement(s) is(are) made in order to comply with the California Safe Drinking Water Act: WARNING: This product contains 4-Hydroxy-3-nitrobenzenearsonic acid, listed as ` \*\* undefined \*\*`, a chemical known to the state of California to cause cancer. California No Significant Risk Level: CAS# 121-19-7: no significant risk level = 0.06 ug/day (inhalation); no significant risk level = 10 ug/day (except inhalation) (listed under ** no name **)

Risk Phrases: R23/25 Toxic by inhalation and if swallowed.
R50/53 Very toxic to aquatic organisms, may cause long term adverse effects in the environment.

Safety Phrase: S20/21 When using do not eat, drink or smoke.
S28 After contact with skin, wash immediately with plenty of water
S45 In case of accident or if you feel unwell, seek medical advice immediately
S60 This material and its container must be disposed of as hazardous waste.
S61 Avoid release to the environment. Refer to special instructions/Safety data sheets.
