

TCI AMERICA SAFETY DATA SHEET

Revision number: 3 Revision date: 08/15/2016

1. IDENTIFICATION

Product name: Dichloromethane (stabilized with 2-Methyl-2-butene) [for Spectrophotometry]

Product code: D0529

Product use: For laboratory research purposes. **Restrictions on use:** Not for drug or household use.

Company: TCI America

9211 N. Harborgate Street Portland, OR 97203 U.S.A.

Telephone:

+1-800-423-8616 / +1-503-283-1681

Fax:

+1-888-520-1075 / +1-503-283-1987

2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200: Acute Toxicity - Oral [Category 4]

Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A] Germ Cell Mutagenicity [Category 2] Carcinogenicity [Category 1B]

Specific Target Organ Toxicity (Single Exposure) [Category 1] Specific Target Organ Toxicity (Single Exposure) [Category 3] Specific Target Organ Toxicity (Repeated Exposure) [Category 1]

Aquatic Hazard (Acute) [Category 2] Aquatic Hazard (Long-Term) [Category 2]

Signal word: Danger!

Hazard Statement(s): Causes serious eye irritation

Causes skin irritation Harmful if swallowed May cause cancer

Suspected of causing genetic defects

Toxic to aquatic life

Toxic to aquatic life with long lasting effects

Causes damage to: Respiratory System Central Nervous System

May cause drowsiness or dizziness.

Causes damage to organs: Liver Central Nervous System through prolonged or repeated exposure.

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing, eye protection and face protection. Do not breathe fume, mist, vapors or spray. Avoid breathing fume, mist, vapors or spray. Use only outdoors or in a well-ventilated area.

2. HAZARD(S) IDENTIFICATION

[Response]

If swallowed: Immediately call a poison center or doctor. Rinse mouth. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. If exposed: Call a poison center or doctor. If exposed or concerned: Get medical advice or attention. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center or doctor if you feel unwell. Get medical advice or attention if you feel unwell.

[Storage] Store locked up. Store in a well-ventilated place. Keep container tightly closed.

[Disposal] Dispose of contents and container in accordance with US EPA guidelines for the classification and

determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Substance

Components: Dichloromethane (stabilized with 2-Methyl-2-butene) [for Spectrophotometry]

 Percent:
 >99.5%(GC)

 CAS Number:
 75-09-2

 Molecular Weight:
 84.93

 Chemical Formula:
 CH₂Cl₂

Synonyms: Methylene Chloride (stabilized with 2-Methyl-2-butene)

Stabilizers: 2-Methyl-2-butene

4. FIRST-AID MEASURES

Inhalation: Call emergency medical service. Effects of exposure (inhalation) to substance may be delayed. Inhalation of vapors or contact with substance will result in contamination and potential harmful effects. Move victim

of vapors or contact with substance will result in contamination and potential harmful effects. Move victim to fresh air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are

aware of the material(s) involved and take precautions to protect themselves.

Skin contact: Call a poison center or doctor if you feel unwell. Effects of exposure (skin contact) to substance may be

delayed. Remove and wash contaminated clothing before re-use. Remove and isolate contaminated clothing and shoes. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Treat symptomatically and supportively. Ensure that medical personnel are aware of the

material(s) involved and take precautions to protect themselves.

Eye contact: IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Contact with

material may irritate or burn eyes. Call emergency medical service. Move victim to fresh air. Check for and remove any contact lenses. Keep victim warm and quiet. Treat symptomatically and supportively. Effects of exposure to substance may be delayed. Ensure that medical personnel are aware of the material(s)

involved and take precautions to protect themselves.

Ingestion: Harmful if swallowed. Do not induce vomiting with out medical advice. Effects of exposure (ingestion) to

substance may be delayed. If swallowed, seek medical advice immediately and show the container or label. Do not use mouth-to-mouth method if victim ingested the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Loosen tight clothing such as a collar, tie, belt or waistband. If a person vomits place them in the recovery position so that vomit will not reenter the mouth and throat. Rinse mouth. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s)

involved and take precautions to protect themselves.

Symptoms/effects:

Acute: Dizziness. Redness. Drowsiness.

Delayed: Carcinogenic to humans. May car

Carcinogenic to humans. May cause heritable genetic damage in humans.

Immediate medical attention: WARNING: It might be hazardous to the person providing aid to give mouth-to-mouth respiration, because

the inhaled material is harmful. CAUTION: Victim may be a source of contamination. If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of the injury. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media: Dry chemical, CO₂, water spray, or alcohol-resistant foam. Consult with local fire authorities before

attempting large scale fire fighting operations.

Specific hazards arising from the chemical

Hazardous combustion products: These products include: Carbon oxides Halogenated compounds

5. FIRE-FIGHTING MEASURES

Other specific hazards: WARNING: Highly toxic HCl gas is produced during combustion.

Special precautions for fire-fighters:

Use water spray or fog; do not use straight streams. Dike fire-control water for later disposal; do not scatter the material. Containers may explode when heated. Move containers from fire area if you can do it without risk.

Special protective equipment for fire-fighters:

Wear positive pressure self-contained breathing apparatus (SCBA). Structural fire fighters' protective clothing provides limited protection in fire situations ONLY; it may not be effective in spill situations. Wear chemical protective clothing which is specifically recommended by the manufacturer. It may provide little or no thermal protection.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not touch

damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation.

Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

Personal protective equipment: Wear eye protection (splash goggles) and face protection (full length face shield). Wear eye protection (splash goggles) and face protection (full length face shield).

Wear eye protection (splash goggles) and face protection (full length face shield). Wear protective clothing (chemical resistant suit and chemical resistant boots). Vapor respirator. Be sure to use a MSHA/NIOSH

approved respirator or equivalent. Wear protective gloves (nitrile).

Emergency procedures: Do not clean-up or dispose except under supervision of a specialist. In case of a spill and/or a leak, always

shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move

away. Prevent entry into sewers, basements or confined areas; dike if needed.

Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. Dike far ahead of spill; use dry sand to contain the flow of material. Ventilate the area.

Environmental precautions:

Keep away from living quarters. Environmental hazard. Do not let product enter drains. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

7. HANDLING AND STORAGE

Precautions for safe handling: Do NOT breath gas, fumes, vapor, or spray. Manipulate under an adequate fume hood. Do not ingest.

Avoid contact with skin and eyes. Avoid contact - obtain special instructions before use. Avoid prolonged or repeated exposure. Normal measures for preventive fire protection. Avoid exposure - obtain special instructions before use. Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink,

or smoke. Keep away from sources of ignition.

Conditions for safe storage: Store locked up. Keep containers tightly closed in a cool, well-ventilated place. Keep away from

incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent

leakage. Avoid prolonged storage periods.

Storage incompatibilities: Combustible substances, Store away from oxidizing agents

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits:

 ACGIH TLV (TWA):
 50 ppm

 OSHA PEL (TWA):
 25 ppm

 OSHA PEL (STEL):
 125 ppm

Appropriate engineering controls:

Handle only in a fully enclosed system and equipment. Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment

Respiratory protection: Vapor respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.

Hand protection:Wear protective gloves.
Eye protection:
Splash goggles.

Skin and body protection: Wear protective clothing (chemical resistant suit and chemical resistant boots).

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Liquid

Dichloromethane (stabilized with 2-Methyl-2-butene) [for Spectrophotometry]

TCI AMERICA

Page 4 of 6

9. PHYSICAL AND CHEMICAL PROPERTIES

Form: Clear
Color: Colorless
Odor: Chloroform-like
Odor threshold: 250 ppm

 Melting point/freezing point:
 -97°C (-143°F)
 pH:
 No data available

 Boiling point/range:
 39°C (102°F)
 Vapor pressure:
 47.4kPa/20°C

Decomposition temperature: No data available **Vapor density:** 2.9

Relative density: 1.33 Dynamic Viscosity: No data available

Kinematic Viscosity: No data available

Partition coefficient: 1.25 Evaporation rate: No data available

n-octanol/water (log Pow) (Butyl Acetate = 1)

Flash point: No data available Autoignition temperature: 556°C (1033°F)

Flammability (solid, gas): No data available Flammability or explosive limits:

Lower: 12%
Upper: 25%

Solubility(ies):

Water: Slightly soluble (1.3g/100mL, 20°C)

Miscible: Ether, Alcohols, Acetone, Chloroform, Carbon tetrachloride

10. STABILITY AND REACTIVITY

Reactivity: Not Available.

Chemical Stability: Stable under recommended storage conditions. (See Section 7)

Possibility of Hazardous Reactions: No hazardous reactivity has been reported.

Conditions to avoid: Avoid excessive heat and light.

Incompatible materials:

Hazardous Decomposition Products:

Oxidizing agents

No data available

11. TOXICOLOGICAL INFORMATION

RTECS Number: PA8050000

Acute Toxicity:

orl-rat LD50:1600 mg/kg orl-hmn LDLo:357 mg/kg

ihl-rat LC50:76000 mg/m³/4H ihl-hmn TCLo:500 ppm/1Y-l

Skin corrosion/irritation: skn-rbt 810 mg/24H SEV

Serious eye damage/irritation:

eye-rbt 162 mg MOD

Respiratory or skin sensitization:

No data available

Germ cell mutagenicity:

dni-hmn-fbr 5000 ppm/1H-C mmo-esc 6300 ppm (+/-S9)

mmo-sat 5700 ppm (+/-S9)

Carcinogenicity:

ihl-mus TCLo:2000 ppm/5H/2Y-C ihl-rat TCLo:3500 ppm/6H/2Y-I

IARC: Group 2A (Probably carcinogenic NTP: b (Reasonably anticipated to be OSHA: Listed, OSHA Known Carcinogen

to humans). carcinogens).

TCI AMERICA

Page 5 of 6

Reproductive toxicity:

ihl-mus TCLo:1250 ppm/7H(6-15D preg)

ihl-rat TCLo:1250 ppm/7H(6-15D preg)

ihl-rat TCLo:4500 ppm/24H(1-17D preg)

Routes of Exposure: Inhalation, Eye contact, Ingestion, Skin contact.

Symptoms related to exposure:

Overexposure may result in serious illness or death. Skin contact may result in inflammation; characterized by itching, scaling, reddening, or occasionally blistering. Skin contact may result in redness, pain or dry skin. Eye contact may result in redness or pain. Inhalation causes irritation of the lungs and respiratory system.

Potential Health Effects:

Skin and eye contact may result in irritation. Inhalation causes irritation of the lungs and respiratory system.

Target organ(s):

Causes damage to: Respiratory System Central Nervous System

May cause drowsiness or dizziness.

Causes damage to organs: Liver Central Nervous System through prolonged or repeated exposure.

12. ECOLOGICAL INFORMATION

Ecotoxicity

48h LC50:331 mg/L (Oryzias latipes) Fish: 96h LC50:193 mg/L (Pimephales promelas) 48h EC50:1250 mg/L (Daphnia magna) Crustacea:

Algae: 72h EC50:>500 mg/L (Selenastrum capricornutum)

Persistence and degradability: 13 % (by BOD), 1 % (by GC)

Bioaccumulative potential (BCF): 2.0 - 5.4 (conc. 250 ug/L), 6.4 - 40 (conc. 25 ug/L)

Mobillity in soil: No data available

Partition coefficient: 1.25

n-octanol/water (log Pow)

Soil adsorption (Koc): 24 Henry's Law: 329

constant (PaM3/mol)

13. DISPOSAL CONSIDERATIONS

Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local Disposal of product: rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a

chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains,

water ways, or the soil.

Disposal of container: Dispose of as unused product. Do not re-use empty containers.

Other considerations: Observe all federal, state and local regulations when disposing of the substance.

14. TRANSPORT INFORMATION

16. OTHER INFORMATION

Revision date: 08/15/2016 Revision number: 3

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
