

## 1 Identification

### Product identifier

**Product name:** 2-Chlorobenzotrifluoride

**Stock number:** L05548

**CAS Number:**

88-16-4

**EC number:**

201-805-1

**Relevant identified uses of the substance or mixture and uses advised against.**

**Identified use:** SU24 Scientific research and development

### Details of the supplier of the safety data sheet

#### Manufacturer/Supplier:

Alfa Aesar  
Thermo Fisher Scientific Chemicals, Inc.

30 Bond Street

Ward Hill, MA 01835-8099

Tel: 800-343-0660

Fax: 800-322-4757

Email: tech@alfa.com

www.alfa.com

**Information Department:** Health, Safety and Environmental Department

**Emergency telephone number:**

During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.

## 2 Hazard(s) identification

**Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)**

GHS02 Flame

Flam. Liq. 3 H226 Flammable liquid and vapour.

GHS06 Skull and crossbones

Acute Tox. 3 H301 Toxic if swallowed.

GHS07

Skin Irrit. 2 H315 Causes skin irritation.

Eye Irrit. 2A H319 Causes serious eye irritation.

STOT SE 3 H335 May cause respiratory irritation.

**Hazards not otherwise classified** No information known.

### Label elements

**GHS label elements** The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS)

### Hazard pictograms

GHS02 GHS06

### Signal word

Danger

### Hazard statements

H226 Flammable liquid and vapour.

H301 Toxic if swallowed.

H315 Causes skin irritation.

H319 Causes serious eye irritation.

H335 May cause respiratory irritation.

### Precautionary statements

P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.

P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/...

P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P405 Store locked up.

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

### WHMIS classification

B3 - Combustible liquid

D2B - Toxic material causing other toxic effects

### Classification system

HMIS ratings (scale 0-4)

(Hazardous Materials Identification System)

HEALTH 1 Health (acute effects) = 1

FIRE 2 Flammability = 2

REACTIVITY 1 Physical Hazard = 1

### Other hazards

**Results of PBT and vPvB assessment**

PBT: Not applicable.

vPvB: Not applicable.

Product name: **2-Chlorobenzotrifluoride**

(Contd. of page 1)

3 Composition/information on ingredients

Chemical characterization: Substances  
CAS# Description:  
88-16-4 2-Chlorobenzotrifluoride  
Identification number(s):  
EC number: 201-805-1

4 First-aid measures

Description of first aid measures  
After inhalation  
Supply fresh air. If required, provide artificial respiration. Keep patient warm.  
Seek immediate medical advice.  
After skin contact  
Immediately wash with water and soap and rinse thoroughly.  
Seek immediate medical advice.  
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.  
After swallowing Seek medical treatment.  
Information for doctor  
Most important symptoms and effects, both acute and delayed No further relevant information available.  
Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

Extinguishing media  
Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.  
Special hazards arising from the substance or mixture  
If this product is involved in a fire, the following can be released:  
Carbon monoxide and carbon dioxide  
Hydrogen chloride (HCl)  
Hydrogen fluoride (HF)  
Advice for firefighters  
Protective equipment:  
Wear self-contained respirator.  
Wear fully protective impervious suit.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures  
Wear protective equipment. Keep unprotected persons away.  
Ensure adequate ventilation  
Environmental precautions: Do not allow material to be released to the environment without proper governmental permits.  
Methods and material for containment and cleaning up:  
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).  
Dispose of contaminated material as waste according to section 13.  
Ensure adequate ventilation.  
Prevention of secondary hazards: No special measures required.  
Reference to other sections  
See Section 7 for information on safe handling  
See Section 8 for information on personal protection equipment.  
See Section 13 for disposal information.

7 Handling and storage

Handling  
Precautions for safe handling  
Keep container tightly sealed.  
Store in cool, dry place in tightly closed containers.  
Ensure good ventilation at the workplace.  
Information about protection against explosions and fires: Keep ignition sources away.  
Conditions for safe storage, including any incompatibilities  
Storage  
Requirements to be met by storerooms and receptacles: No special requirements.  
Information about storage in one common storage facility: Store away from oxidizing agents.  
Further information about storage conditions:  
Keep container tightly sealed.  
Store in cool, dry conditions in well sealed containers.  
Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems:  
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.  
Control parameters  
Components with limit values that require monitoring at the workplace: Not required.

Ingredients with biological limit values:

| 88-16-4 2-Chlorobenzotrifluoride (100.0%) |                                                                                                  |
|-------------------------------------------|--------------------------------------------------------------------------------------------------|

Additional information: No data  
Exposure controls  
Personal protective equipment  
General protective and hygienic measures  
The usual precautionary measures for handling chemicals should be followed.  
Keep away from foodstuffs, beverages and feed.

**9 Physical and chemical properties**

|                                                              |                                               |
|--------------------------------------------------------------|-----------------------------------------------|
| <b>Information on basic physical and chemical properties</b> |                                               |
| <b>General Information</b>                                   |                                               |
| <b>Appearance:</b>                                           |                                               |
| Form:                                                        | Liquid                                        |
| Color:                                                       | Colorless                                     |
| Odor:                                                        | Not determined                                |
| Odor threshold:                                              | Not determined.                               |
| pH-value:                                                    | Not determined.                               |
| <b>Change in condition</b>                                   |                                               |
| Melting point/Melting range:                                 | Not determined                                |
| Boiling point/Boiling range:                                 | 151-153 °C (304-307 °F)                       |
| Sublimation temperature / start:                             | Not determined                                |
| Flash point:                                                 | 59 °C (138 °F)                                |
| Flammability (solid, gaseous)                                | Not determined.                               |
| Ignition temperature:                                        | Not determined                                |
| Decomposition temperature:                                   | Not determined                                |
| Auto igniting:                                               | Not determined.                               |
| <b>Danger of explosion:</b>                                  |                                               |
| Explosion limits:                                            | Product does not present an explosion hazard. |
| Lower:                                                       | Not determined                                |
| Upper:                                                       | Not determined                                |
| Vapor pressure:                                              | Not determined                                |
| Density at 20 °C (68 °F):                                    | 1.379 g/cm³ (11.508 lbs/gal)                  |
| Relative density                                             | Not determined.                               |
| Vapor density                                                | Not determined.                               |
| Evaporation rate                                             | Not determined.                               |
| <b>Solubility in / Miscibility with</b>                      |                                               |
| Water:                                                       | Not determined                                |
| Partition coefficient (n-octanol/water):                     | Not determined.                               |
| <b>Viscosity:</b>                                            |                                               |
| dynamic:                                                     | Not determined.                               |
| kinematic:                                                   | Not determined.                               |
| Other information                                            | No further relevant information available.    |

**10 Stability and reactivity**

|                                                                                                                                       |  |
|---------------------------------------------------------------------------------------------------------------------------------------|--|
| <b>Reactivity</b> No information known.                                                                                               |  |
| <b>Chemical stability</b> Stable under recommended storage conditions.                                                                |  |
| <b>Thermal decomposition / conditions to be avoided:</b> Decomposition will not occur if used and stored according to specifications. |  |
| <b>Possibility of hazardous reactions</b> No dangerous reactions known                                                                |  |
| <b>Conditions to avoid</b> No further relevant information available.                                                                 |  |
| <b>Incompatible materials:</b> Oxidizing agents                                                                                       |  |
| <b>Hazardous decomposition products:</b>                                                                                              |  |
| Carbon monoxide and carbon dioxide                                                                                                    |  |
| Hydrogen chloride (HCl)                                                                                                               |  |
| Hydrogen fluoride                                                                                                                     |  |

**11 Toxicological information**

|                                                                                                                                                 |  |
|-------------------------------------------------------------------------------------------------------------------------------------------------|--|
| <b>Information on toxicological effects</b>                                                                                                     |  |
| <b>Acute toxicity:</b> Harmful if swallowed.                                                                                                    |  |
| <b>LD/LC50 values that are relevant for classification:</b> No data                                                                             |  |
| <b>Skin irritation or corrosion:</b> Causes skin irritation.                                                                                    |  |
| <b>Eye irritation or corrosion:</b> Causes serious eye irritation.                                                                              |  |
| <b>Sensitization:</b> No sensitizing effects known.                                                                                             |  |
| <b>Germ cell mutagenicity:</b> No effects known.                                                                                                |  |
| <b>Carcinogenicity:</b> No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. |  |
| <b>Reproductive toxicity:</b> No effects known.                                                                                                 |  |
| <b>Specific target organ system toxicity - repeated exposure:</b> No effects known.                                                             |  |
| <b>Specific target organ system toxicity - single exposure:</b> May cause respiratory irritation.                                               |  |
| <b>Aspiration hazard:</b> No effects known.                                                                                                     |  |
| <b>Subacute to chronic toxicity:</b> No effects known.                                                                                          |  |
| <b>Additional toxicological information:</b> To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.  |  |

**12 Ecological information**

USA

**Product name: 2-Chlorobenzotrifluoride**

**Results of PBT and vPvB assessment**  
PBT: Not applicable.  
vPvB: Not applicable.  
**Other adverse effects** No further relevant information available. (Contd. of page 3)

**13 Disposal considerations**  
**Waste treatment methods**  
**Recommendation** Consult state, local or national regulations to ensure proper disposal.  
**Uncleaned packagings:**  
**Recommendation:** Disposal must be made according to official regulations.

**14 Transport information**

**15 Regulatory information**

**Safety, health and environmental regulations/legislation specific for the substance or mixture**  
**GHS label elements** The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS)  
**Hazard pictograms**

 

GHS02 GHS06

**Signal word** Danger  
**Hazard statements**  
H226 Flammable liquid and vapour.  
H301 Toxic if swallowed.  
H315 Causes skin irritation.  
H319 Causes serious eye irritation.  
H335 May cause respiratory irritation.  
**Precautionary statements**  
P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.  
P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/...  
P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.  
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P405 Store locked up.  
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.  
**National regulations**  
All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory.  
All components of this product are listed on the Canadian Non-Domestic Substances List (NDSL).  
**SARA Section 313 (specific toxic chemical listings)** Substance is not listed.  
**California Proposition 65**  
**Prop 65 - Chemicals known to cause cancer** Substance is not listed.  
**Prop 65 - Developmental toxicity** Substance is not listed.  
**Prop 65 - Developmental toxicity, female** Substance is not listed.  
**Prop 65 - Developmental toxicity, male** Substance is not listed.  
**Information about limitation of use:** For use only by technically qualified individuals.  
**Other regulations, limitations and prohibitive regulations**  
**Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006.** Substance is not listed.  
**The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed.**  
Substance is not listed.  
**Annex XIV of the REACH Regulations (requiring Authorisation for use)** Substance is not listed.
