

## SAFETY DATA SHEET

Version 4.5  
Revision Date 07/15/2014  
Print Date 11/10/2018

---

1. PRODUCT AND COMPANY IDENTIFICATION

## 1.1 Product identifiers

Product name : 2-(Trifluoromethyl)aniline

Product Number : A41607

Brand : Aldrich

CAS-No. : 88-17-5

## 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Laboratory chemicals, Manufacture of substances

## 1.3 Details of the supplier of the safety data sheet

Company : Sigma-Aldrich  
3050 Spruce Street  
SAINT LOUIS MO 63103  
USA

Telephone : +1 800-325-5832

Fax : +1 800-325-5052

## 1.4 Emergency telephone number

Emergency Phone # : +1-703-527-3887 (CHEMTREC)

---

2. HAZARDS IDENTIFICATION

## 2.1 Classification of the substance or mixture

**GHS Classification in accordance with 29 CFR 1910 (OSHA HCS)**

Flammable liquids (Category 3), H226

Acute toxicity, Oral (Category 3), H301

Acute toxicity, Inhalation (Category 3), H331

Acute toxicity, Dermal (Category 3), H311

Specific target organ toxicity - repeated exposure (Category 2), H373

For the full text of the H-Statements mentioned in this Section, see Section 16.

## 2.2 GHS Label elements, including precautionary statements

Pictogram

Signal word : Danger

Hazard statement(s)

H226

Flammable liquid and vapour.

H301 + H311 + H331

Toxic if swallowed, in contact with skin or if inhaled

H373

May cause damage to organs through prolonged or repeated exposure.

Precautionary statement(s)

P210

Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

P233

Keep container tightly closed.

P240

Ground/bond container and receiving equipment.

P241

Use explosion-proof electrical/ ventilating/ lighting/ equipment.

P242

Use only non-sparking tools.

P243

Take precautionary measures against static discharge.

|                    |                                                                                                              |
|--------------------|--------------------------------------------------------------------------------------------------------------|
| P260               | Do not breathe dust/ fume/ gas/ mist/ vapours/ spray.                                                        |
| P264               | Wash skin thoroughly after handling.                                                                         |
| P270               | Do not eat, drink or smoke when using this product.                                                          |
| P271               | Use only outdoors or in a well-ventilated area.                                                              |
| P280               | Wear protective gloves/ protective clothing/ eye protection/ face protection.                                |
| P301 + P310        | IF SWALLOWED: Immediately call a POISON CENTER or doctor/ physician.                                         |
| P303 + P361 + P353 | IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower. |
| P304 + P340        | IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.             |
| P314               | Get medical advice/ attention if you feel unwell.                                                            |
| P322               | Specific measures (see supplemental first aid instructions on this label).                                   |
| P330               | Rinse mouth.                                                                                                 |
| P361               | Remove/Take off immediately all contaminated clothing.                                                       |
| P363               | Wash contaminated clothing before reuse.                                                                     |
| P370 + P378        | In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction.                        |
| P403 + P233        | Store in a well-ventilated place. Keep container tightly closed.                                             |
| P403 + P235        | Store in a well-ventilated place. Keep cool.                                                                 |
| P405               | Store locked up.                                                                                             |
| P501               | Dispose of contents/ container to an approved waste disposal plant.                                          |

## 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS - none

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 Substances

Synonyms : 2-Aminobenzotrifluoride  
α,α,α-Trifluoro-o-toluidine

Formula : C<sub>7</sub>H<sub>6</sub>F<sub>3</sub>N  
Molecular Weight : 161.12 g/mol  
CAS-No. : 88-17-5  
EC-No. : 201-806-7

#### Hazardous components

| Component                   | Classification                                                              | Concentration |
|-----------------------------|-----------------------------------------------------------------------------|---------------|
| α,α,α-Trifluoro-o-toluidine |                                                                             |               |
|                             | Flam. Liq. 3; Acute Tox. 3;<br>STOT RE 2; H226, H301 +<br>H311 + H331, H373 | -             |

For the full text of the H-Statements mentioned in this Section, see Section 16.

## 4. FIRST AID MEASURES

### 4.1 Description of first aid measures

#### General advice

Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

#### If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

#### In case of skin contact

Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician.

#### In case of eye contact

Flush eyes with water as a precaution.

#### If swallowed

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

#### 4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11

#### 4.3 Indication of any immediate medical attention and special treatment needed

no data available

---

### 5. FIREFIGHTING MEASURES

#### 5.1 Extinguishing media

##### Suitable extinguishing media

For small (incipient) fires, use media such as "alcohol" foam, dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use very large quantities (flooding) of water applied as a mist or spray; solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water.

#### 5.2 Special hazards arising from the substance or mixture

Carbon oxides, nitrogen oxides (NO<sub>x</sub>), Hydrogen fluoride

#### 5.3 Advice for firefighters

Wear self contained breathing apparatus for fire fighting if necessary.

#### 5.4 Further information

Use water spray to cool unopened containers.

---

### 6. ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures

Wear respiratory protection. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. For personal protection see section 8.

#### 6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

#### 6.3 Methods and materials for containment and cleaning up

Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13).

#### 6.4 Reference to other sections

For disposal see section 13.

---

### 7. HANDLING AND STORAGE

#### 7.1 Precautions for safe handling

Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge. For precautions see section 2.2.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

#### 7.3 Specific end use(s)

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

---

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1 Control parameters

##### Components with workplace control parameters

Contains no substances with occupational exposure limit values.

#### 8.2 Exposure controls

##### Appropriate engineering controls

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product.

## Personal protective equipment

### Eye/face protection

Face shield and safety glasses Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

### Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

#### Full contact

Material: Fluorinated rubber

Minimum layer thickness: 0.7 mm

Break through time: 480 min

Material tested: Vitoject® (KCL 890 / Aldrich Z677698, Size M)

#### Splash contact

Material: Fluorinated rubber

Minimum layer thickness: 0.7 mm

Break through time: 480 min

Material tested: Vitoject® (KCL 890 / Aldrich Z677698, Size M)

data source: KCL GmbH, D-36124 Eichenzell, phone +49 (0)6659 87300, e-mail sales@kcl.de, test method: EN374

If used in solution, or mixed with other substances, and under conditions which differ from EN 374, contact the supplier of the CE approved gloves. This recommendation is advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers. It should not be construed as offering an approval for any specific use scenario.

### Body Protection

Complete suit protecting against chemicals, Flame retardant antistatic protective clothing, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

### Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

### Control of environmental exposure

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

---

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

- |                                            |                                                                                 |
|--------------------------------------------|---------------------------------------------------------------------------------|
| a) Appearance                              | Form: clear, liquid<br>Colour: light brown                                      |
| b) Odour                                   | no data available                                                               |
| c) Odour Threshold                         | no data available                                                               |
| d) pH                                      | no data available                                                               |
| e) Melting point/freezing point            | Melting point/range: 34 °C (93 °F) - lit.                                       |
| f) Initial boiling point and boiling range | 68 °C (154 °F) at 20 hPa (15 mmHg) - lit.<br>170 - 173 °C (338 - 343 °F) - lit. |
| g) Flash point                             | 55 °C (131 °F) - closed cup                                                     |
| h) Evaporation rate                        | no data available                                                               |
| i) Flammability (solid, gas)               | no data available                                                               |
| j) Upper/lower                             | no data available                                                               |

flammability or  
explosive limits

- |                                           |                                          |
|-------------------------------------------|------------------------------------------|
| k) Vapour pressure                        | no data available                        |
| l) Vapour density                         | no data available                        |
| m) Relative density                       | 1.282 g/cm <sup>3</sup> at 25 °C (77 °F) |
| n) Water solubility                       | no data available                        |
| o) Partition coefficient: n-octanol/water | no data available                        |
| p) Auto-ignition temperature              | no data available                        |
| q) Decomposition temperature              | no data available                        |
| r) Viscosity                              | no data available                        |
| s) Explosive properties                   | no data available                        |
| t) Oxidizing properties                   | no data available                        |

## 9.2 Other safety information

no data available

---

## 10. STABILITY AND REACTIVITY

### 10.1 Reactivity

no data available

### 10.2 Chemical stability

Stable under recommended storage conditions.

### 10.3 Possibility of hazardous reactions

no data available

### 10.4 Conditions to avoid

Heat, flames and sparks.

### 10.5 Incompatible materials

acids, Oxidizing agents

### 10.6 Hazardous decomposition products

Other decomposition products - no data available

In the event of fire: see section 5

---

## 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

#### Acute toxicity

no data available

no data available

#### Skin corrosion/irritation

no data available

#### Serious eye damage/eye irritation

no data available

#### Respiratory or skin sensitisation

no data available

#### Germ cell mutagenicity

no data available

#### Carcinogenicity

- IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
- ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.
- NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.
- OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

**Reproductive toxicity**

no data available

no data available

**Specific target organ toxicity - single exposure**

no data available

**Specific target organ toxicity - repeated exposure**

May cause damage to organs through prolonged or repeated exposure.

**Aspiration hazard**

no data available

**Additional Information**

RTECS: Not available

Cough, Shortness of breath, Headache, Nausea, Vomiting, May cause cyanosis., prolonged or repeated exposure can cause:, Dizziness

---

## 12. ECOLOGICAL INFORMATION

### 12.1 Toxicity

no data available

### 12.2 Persistence and degradability

no data available

### 12.3 Bioaccumulative potential

no data available

### 12.4 Mobility in soil

no data available

### 12.5 Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

### 12.6 Other adverse effects

no data available

---

## 13. DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

**Product**

Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

**Contaminated packaging**

Dispose of as unused product.

---

## 14. TRANSPORT INFORMATION

**DOT (US)**

UN number: 2942

Class: 6.1

Packing group: III

Proper shipping name: 2-Trifluoromethylaniline

Marine pollutant: No  
Poison Inhalation Hazard: No

#### IMDG

UN number: 2942      Class: 6.1      Packing group: III      EMS-No: F-A, S-A  
Proper shipping name: 2-TRIFLUOROMETHYLANILINE  
Marine pollutant: No

#### IATA

UN number: 2942      Class: 6.1      Packing group: III  
Proper shipping name: 2-Trifluoromethylaniline

---

### 15. REGULATORY INFORMATION

#### SARA 302 Components

SARA 302: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

#### SARA 313 Components

SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

#### SARA 311/312 Hazards

Fire Hazard, Acute Health Hazard

#### Massachusetts Right To Know Components

No components are subject to the Massachusetts Right to Know Act.

#### Pennsylvania Right To Know Components

|                                               | CAS-No. | Revision Date |
|-----------------------------------------------|---------|---------------|
| $\alpha,\alpha,\alpha$ -Trifluoro-o-toluidine | 88-17-5 | 2007-03-01    |

#### New Jersey Right To Know Components

|                                               | CAS-No. | Revision Date |
|-----------------------------------------------|---------|---------------|
| $\alpha,\alpha,\alpha$ -Trifluoro-o-toluidine | 88-17-5 | 2007-03-01    |

#### California Prop. 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

---

### 16. OTHER INFORMATION

#### Full text of H-Statements referred to under sections 2 and 3.

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Acute Tox.         | Acute toxicity                                                     |
| Flam. Liq.         | Flammable liquids                                                  |
| H226               | Flammable liquid and vapour.                                       |
| H301               | Toxic if swallowed.                                                |
| H301 + H311 + H331 | Toxic if swallowed, in contact with skin or if inhaled             |
| H311               | Toxic in contact with skin.                                        |
| H331               | Toxic if inhaled.                                                  |
| H373               | May cause damage to organs through prolonged or repeated exposure. |

#### HMIS Rating

|                        |   |
|------------------------|---|
| Health hazard:         | 2 |
| Chronic Health Hazard: |   |
| Flammability:          | 2 |
| Physical Hazard        | 0 |

#### NFPA Rating

|                    |   |
|--------------------|---|
| Health hazard:     | 2 |
| Fire Hazard:       | 2 |
| Reactivity Hazard: | 0 |
