

## MATERIAL SAFETY DATA SHEET

### 3-PROPYLTHIOPHENE

Revision: 26/04/2011

Page 1/2

#### SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

|                                    |                                                                                               |                                                                                                          |
|------------------------------------|-----------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|
| <b>Company Identification:</b>     | <b>Georganics Ltd.</b><br>Koreničova 1<br>811 03 Bratislava<br>Slovak Republic                | Phone Number: +421 33 6403132<br>Fax Number: +421 33 6403133<br>E-mail address: georganics@georganics.sk |

#### SECTION 2 - HAZARDS IDENTIFICATION

|                       |                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----------------------|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Hazard Symbol:</b> |   | <b>Risk Phrases:</b><br>R10 - Flammable                                                                                                                                                                                                                                                                                                                                                         |
| <b>F -Flammable</b>   |                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>GHS pictogram:</b> |  | H226 - Flammable liquid and vapor.<br>P210 - Keep away from heat/sparks/open flames/hot surfaces. – NO SMOKING<br>P261 - Avoid breathing dust/fume/gas/mist/vapors/spray<br>P302+ P352 - IF ON SKIN: Wash with plenty of soap and water<br>P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing |
| <b>Signal word:</b>   | <b>Warning</b>                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                 |

#### SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| CAS#      | Chemical Name     | Assay (%) | EINECS# |
|-----------|-------------------|-----------|---------|
| 1518-75-8 | 3-Propylthiophene | min. 97   | -       |

#### SECTION 4 - FIRST AID MEASURES

|                    |                                                                                                                                              |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Eyes:</b>       | Rinse opened eye for at least 15 minutes under running water. Get medical aid.                                                               |
| <b>Skin:</b>       | Instantly wash with water and soap and rinse thoroughly. Get medical aid.                                                                    |
| <b>Ingestion:</b>  | Wash mouth out with water.                                                                                                                   |
| <b>Inhalation:</b> | Remove from exposure and move to fresh air immediately. If breathing is difficult, give oxygen. If required, provide artificial respiration. |

#### SECTION 5 - FIRE FIGHTING MEASURES

|                                             |                                                                                                    |
|---------------------------------------------|----------------------------------------------------------------------------------------------------|
| <b>Suitable extinguishing agents</b>        | Use alcohol-resistant foam, dry chemical, carbon dioxide. Cool closed containers with water.       |
| <b>Protective equipment:</b>                | Wear self-contained breathing apparatus and protective clothing to prevent contact with skin/eyes. |
| <b>Unusual fire and explosions hazards:</b> | During a fire, irritating and toxic gases may be generated by thermal decomposition or combustion. |

#### SECTION 6 - ACCIDENTAL RELEASE MEASURES

|                                           |                                                                                                                                                             |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Person-related safety precautions:</b> | Wear protective equipment as indicated in section 8. Ensure adequate ventilation. Avoid dust formation. Wash spill site after material pickup is complete.  |
| <b>Environmental precautions</b>          | Should not be released into the environment.                                                                                                                |
| <b>Additional information:</b>            | See Section 7 for information on safe handling. See section 8 for information on personal protection equipment. See Section 13 for information on disposal. |

#### SECTION 7 - HANDLING AND STORAGE

|                  |                                                                                                                                                                                                                  |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Handling:</b> | Wash thoroughly after handling. Avoid contact with eyes, skin, and clothing. Avoid ingestion and inhalation. Avoid dust formation.                                                                               |
| <b>Storage:</b>  | Store in a dry, cool and well-ventilated place. Keep container closed when not in use. Keep away from heat/sparks/open flame/hot surfaces. -No smoking. See Section 10 for stability and reactivity information. |

## SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

|                                      |                                                                                                                                         |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Engineering Controls:</b>         | Use process enclosure, local exhaust ventilation, or other engineering controls to control airborne levels. Safety shower and eye bath. |
| <b>Personal Protective Equipment</b> |                                                                                                                                         |
| <b>Eyes:</b>                         | Wear chemical safety glasses.                                                                                                           |
| <b>Skin:</b>                         | Wear appropriate protective gloves and clothing to prevent skin exposure.                                                               |
| <b>Clothing:</b>                     | Wear appropriate protective work clothing.                                                                                              |
| <b>Respirators:</b>                  | Use breathing protection with high concentrations.                                                                                      |

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

|                                  |                                  |
|----------------------------------|----------------------------------|
| <b>Form:</b>                     | Liquid                           |
| <b>Color:</b>                    | Clear colourless to yellowish    |
| <b>Boiling Point:</b>            | 161 °C                           |
| <b>Freezing/Melting Point:</b>   | Not available                    |
| <b>Flash Point:</b>              | Not available                    |
| <b>Specific Gravity/Density:</b> | Not available                    |
| <b>Refractive Index:</b>         | Not available                    |
| <b>Molecular Formula:</b>        | C <sub>7</sub> H <sub>10</sub> S |
| <b>Molecular Weight:</b>         | 126,22                           |

## SECTION 10 - STABILITY AND REACTIVITY

|                                          |                                                      |
|------------------------------------------|------------------------------------------------------|
| <b>Chemical Stability:</b>               | Stable under recommended temperatures and pressures. |
| <b>Incompatible Materials:</b>           | Strong oxidizing agents                              |
| <b>Conditions to avoid:</b>              | Incompatible materials                               |
| <b>Hazardous Decomposition Products:</b> | Carbon oxides, oxides of sulfur                      |

## SECTION 11 - TOXICOLOGICAL INFORMATION

|                                  |                                                                                                                                                                                    |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Carcinogenicity:</b>          | There are no known carcinogenic chemicals in this product. No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. |
| <b>Potential Health Effects:</b> | Inhalation may cause respiratory irritation. May be harmful if inhaled, swallowed or absorbed through skin.                                                                        |
| <b>Other:</b>                    | The toxicological properties have not been fully investigated.                                                                                                                     |

## SECTION 12 - ECOLOGICAL INFORMATION

Do not let product enter drains.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Dispose of in a manner consistent with federal, state, and local regulations.

## SECTION 14 - TRANSPORT INFORMATION

|                       | <b>IATA</b>              | <b>IMDG/IMO</b>          | <b>RID/ADR</b>           |
|-----------------------|--------------------------|--------------------------|--------------------------|
| <b>Shipping Name:</b> | FLAMMABLE LIQUID, N.O.S. | FLAMMABLE LIQUID, N.O.S. | FLAMMABLE LIQUID, N.O.S. |
| <b>Hazard Class:</b>  | 3                        | 3                        | 3                        |
| <b>UN Number:</b>     | 1993                     | 1993                     | 1993                     |
| <b>Packing Group:</b> | III                      | III                      | III                      |

## SECTION 15 - REGULATORY INFORMATION

### European/International Regulations

European Labeling in Accordance with EC Directives

|                 |                                                                                                    |
|-----------------|----------------------------------------------------------------------------------------------------|
| Hazard Symbols: | F - Flammable                                                                                      |
| Risk Phrases:   | R10 - Flammable                                                                                    |
| Safety Phrases: | S16 - Keep away from sources of ignition – No smoking.<br>S36 - Wear suitable protective clothing. |

Canadian DSL/NDSL CAS# 1518-75-8 is not listed on Canada's DSL or NDSL List.

US Federal TSCA CAS# 1518-75-8 is not listed on the TSCA Inventory.

## SECTION 16 - OTHER INFORMATION

### WARRANTY

*The information contained in the MSDS are compiled according to the present knowledge of the manufacturer. It does not represent any guarantee of the properties of the product. MSDS shall be used only as a guide. Georganics Ltd. is not liable for damages incurred in the handling or contact with chemicals.*
