SECTION 1: CHEMICAL PRODUCT and COMPANY IDENTIFICATION

Product Name: 1,1,1-Trifluoroethane, 99%
Synonyms: FC-143a
Manufacturer/Supplier Name: Alfa Aesar - A Johnson Matthey Company
Address: 30 Bond St.
          Ward Hill, MA 01835
Business Phone: 978-521-6300
Business Fax: 978-521-6350
For information in North America, call: 978-521-6300
CHEMTREC Numbers:
   For emergencies in the US, call CHEMTREC: 800-424-9300
   For emergencies outside US, call INTERNATIONAL: (703)527-3887
   For Nonemergency, call: (800)262-8200

SECTION 2: COMPOSITION, INFORMATION ON INGREDIENTS

Chemical Name 1,1,1-Trifluoroethane
CAS# 420-46-2
% Weight (Typical) 99

SECTION 3: HAZARDS IDENTIFICATION

Emergency Overview: Reproductive effects. Mutation data.

1,1,1-Trifluoroethane:
Potential Health Effects:
   Eye Contact: No data
   Skin Contact: No data
   Inhalation: No data
   Ingestion: No data
   Target Organs: Reproductive System.
SECTION 4 : FIRST AID MEASURES

**Eye Contact:**
Immediately flush eyes with plenty of water for at least 20 minutes. Assure adequate flushing of the eyes by separating the eyelids with fingers. Get immediate medical attention if irritation persists, or symptoms of overexposure become apparent.

**Skin Contact:**
Immediately wash skin with plenty of water for at least 20 minutes, while removing contaminated clothing and shoes. Get medical attention especially, if irritation develops, persists, or symptoms of overexposure become apparent.

**Inhalation:**
Remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Keep warm. Get immediate medical attention.

**Ingestion:**
If swallowed, call a physician or poison control center immediately. Never give anything by mouth to an unconscious person. Do not induce vomiting unless instructed by medical personnel. Get medical attention.

SECTION 5 : FIRE FIGHTING MEASURES

**Flash Point:**
No data

**Extinguishing Media:**
Use dry powder or carbon dioxide when fighting a fire involving this material.

**Unsuitable Media:**
Water extinguishers are not recommended.

**Protective Equipment:**
As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH (approved or equivalent) and full protective gear.

SECTION 6 : ACCIDENTAL RELEASE MEASURES

**Personal Precautions:**
Keep upwind of leak. Evacuate area until gas has dispersed. Shut off source of leak if it is safe to do so. Eliminate all sources of ignition. See also section 8.

**Spill Cleanup Measures:**
Shut off leak if it is safe to do so. Ventilate spill area and allow to evaporate. Refer to section 13 for disposal or reporting requirements.

**Environmental Precautions:**
Do not allow material to enter drains or streams.

SECTION 7 : HANDLING and STORAGE

**Handling:**
This product should be handled only by, or under the close supervision of, those properly qualified in the handling and use of potentially hazardous chemicals, who should take into account the fire, health and chemical hazard data. It should always be handled in an efficient fume hood or equivalent system. The user should consider that the toxicological and physiological properties of many compounds are not yet well determined and that new hazardous products may arise from reactions between chemicals. Care should be taken to prevent any chemical from coming into contact with the skin or eyes and from contaminating personal clothing.

**Storage:**
Store in a cool, dry, well ventilated area away from sources of heat and incompatible substances. Keep container tightly closed when not in use.

**Hygiene Practices:**
Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling vapor or mist.
Engineering Controls: Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.

Skin Protection Description: Wear suitable protective clothing to prevent contact with skin.

Hand Protection Description: Wear appropriate protective gloves. Consult glove manufacturers for glove permeability data.

Eye/Face Protection: Wear appropriate protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye and face protection regulation, or the European standard EN 166.

Respiratory Protection: A NIOSH approved air-purifying respirator with an appropriate cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited to airborne concentrations that are typically within 10 times the exposure limit. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection. A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirators use.

Other Protective: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

SECTION 9: PHYSICAL and CHEMICAL PROPERTIES

Physical State/Appearance: Gas
Color: Colorless
Flash Point: No data
Boiling Point: -47°C (-52.6°F)
Melting Point: -111°C (-167.8°F)
Solubility in Water: Insoluble
Density: 0.942
Molecular Formula: C₂H₃F₃
Molecular Weight: 84.04

SECTION 10: STABILITY and REACTIVITY

Conditions to Avoid: High temperatures, flames and sparks.
Incompatibilities with Other Materials: Oxidizing agents.
Possible Decomposition Product: Carbon monoxide. Hydrogen fluoride.
**SECTION 11: TOXICOLOGICAL INFORMATION**

**1,1,1-Trifluoroethane**

**SECTION 13: DISPOSAL CONSIDERATIONS**

Waste Disposal: Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and/or state and local guidelines, by a licensed disposal company.

SECTION 16 : ADDITIONAL INFORMATION

MSDS Preparation Date: January 1, 2002, Version 1
MSDS Revision Date: April 14, 2003.

MSDS Author: Actio Corporation.

Disclaimer:
This Health and Safety Information is correct to the best of our knowledge and belief at the date of its
publication but we cannot accept liability for any loss, injury or damage which may result from its use. We
shall ensure, so far as is reasonably practicable, that any revision of this Data Sheet is sent to all
customers to whom we have directly supplied this substance, but must point out that it is the
responsibility of any intermediate supplier to ensure that such revision is passed to the ultimate user. The
information given in the Data Sheet is designed only as a guidance for safe handling, storage and the use
of the substance. It is not a specification nor does it guarantee any specific properties. All chemicals
should be handled only by competent personnel, within a controlled environment.
Should further information be required, this can be obtained through the sales office whose address is at
the top of this data sheet. We welcome any additional information about our products that customers have
obtained by personal experience.
