

# **Material Safety Data Sheet**

## HAZARD WARNINGS

RISK PHRASES

Toxic compound, do not ingest or inhale. Avoid all contact with this material.

Environmental hazard.

This material is very toxic to aquatic organisms and may cause long term adverse effects to the aquatic environment. Teratogenic material.

Irritating to skin, eyes, and the respiratory system.

Section I. (	Chemical Product and Company Identificat	tion	
Chemical Name	4-Chloromercuribenzoic Acid		
Catalog Number	C0194	Supplier	TCI America 9211 N. Harborgate St.
Synonym	Not available.		Portland OR 1-800-423-8616
Chemical Formula	$\overline{\text{C}_7\text{H}_5\text{ClHgO}_2}$		
CAS Number	59-85-8	In case of Emergency Call	Chemtrec® (800) 424-9300 (U.S.) (703) 527-3887 (International)

Section II. Composition and Information on Ingredients				
Chemical Name	CAS Number	Percent (%)	TLV/PEL	Toxicology Data
4-Chloromercuribenzoic Acid	59-85-8	Min. 98.0 (T)	Not available.	Mouse LD <sub>50</sub> (intraperitoneal) 25 mg/kg

# Section III. Hazards Identification

Acute Health Effects

Toxic if ingested or inhaled. Avoid prolonged contact with this material. Overexposure may result in serious illness or death. Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening, or, occasionally, blistering.

Follow safe industrial hygiene practices and always wear proper protective equipment when handling this compound.

Chronic Health Effects

CARCINOGENIC EFFECTS: Not available.

MUTAGENIC EFFECTS: Not available.

TERATOGENIC EFFECTS: Not available.

DEVELOPMENTAL TOXICITY: Not available.

Repeated exposure to an highly toxic material may produce general deterioration of health by an accumulation in one or

many human organs.

Section IV.	First Aid Measures

Eye Contact

Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.

Skin Contact

In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.

Inhalation

If the victim is not breathing, perform mouth-to-mouth resuscitation. Loosen tight clothing such as a collar, tie, belt or waistband. If breathing is difficult, oxygen can be administered. Seek medical attention if respiration problems do not improve

Ingestion

INDUCE VOMITING by sticking finger in throat. Lower the head so that the vomit will not reenter the mouth and throat. Loosen tight clothing such as a collar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible indication that the toxic material was ingested; the absence of such signs, however, is not conclusive.

# Flammability Flash Points Mot available. Mot available. Flammable Limits Not available. Combustion Products These products are toxic carbon oxides (CO, CO<sub>2</sub>), halogenated compounds. Some metallic oxides. WARNING: Highly toxic HCl gas is produced during combustion.

Fire Hazards Not available.

Explosion Hazards Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available.

Fire Fighting Media and Instructions

SMALL FIRE: Use DRY chemical powder.

LARGE FIRE: Use water spray, fog or foam. DO NOT use water jet.

Consult with local fire authorities before attempting large scale fire-fighting operations.

C0194 4-Chloromercuribenzoic Acid Page 2 Section VI. Accidental Release Measures Spill Cleanup Toxic material. Environmentally hazardous material. Teratogenic material. Irritating material. Stop leak if without risk. DO NOT get water inside container. DO NOT touch spilled material. Use water spray to reduce Instructions vapors. Prevent entry into sewers, basements or confined areas; dike if needed. Eliminate all sources of ignition. Consult federal, state, and/or local authorities for assistance on disposal. Section VII. Handling and Storage TOXIC. VERY TOXIC ENVIRONMENTAL HAZARD. TERATOGEN. IRRITANT. Keep locked up. Keep away from heat. Handling and Storage Mechanical exhaust required. When not in use, tightly seal the container and store in a dry, cool place. Avoid excessive Information heat and light. DO NOT ingest. Do not breathe dust. Wear suitable protective clothing. If ingested, seek medical advice immediately and show the container or the label. Treat symptomatically and supportively. Always store away from incompatible compounds such as oxidizing agents, reducing agents Section VIII. Exposure Controls/Personal Protection Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended **Engineering Controls** exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit. Splash goggles. Lab coat. Dust respirator. Boots. Gloves. A MSHA/NIOSH approved respirator must be used to avoid Personal Protection Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this **Exposure Limits** Not available

Section IX. Physical and Chemical Properties				
Physical state @ 20°C	Solid. (Powder. White - almost white.)	Solubility	Soluble in sodium hydroxide solution.	
Specific Gravity	Not available.			
Molecular Weight	357.16	Partition Coefficient	Not available.	
Boiling Point	Not available.	Vapor Pressure	Not applicable.	
Melting Point	273℃ (523.4°F)	Vapor Density	Not available.	
Refractive Index	Not available.	Volatility	Not available.	
Critical Temperature	Not available.	Odor	Not available.	
Viscosity	Not available.	Taste	Not available.	

### Section X. Stability and Reactivity Data Stability This material is stable if stored under proper conditions. (See Section VII for instructions) Conditions of Instability Avoid excessive heat and light. Incompatibilities Reactive with oxidizing agents, reducing agents, aluminium.

Section XI.	Toxicological Information
RTECS Number	OV8050000
Routes of Exposure	Eye Contact. Ingestion. Inhalation.
Toxicity Data	Mouse LD₅₀ (intraperitoneal) 25 mg/kg
Chronic Toxic Effects	CARCINOGENIC EFFECTS: Not available.  MUTAGENIC EFFECTS: Not available.  TERATOGENIC EFFECTS: Not available.  DEVELOPMENTAL TOXICITY: Not available.  Repeated exposure to an highly toxic material may produce general deterioration of health by an accumulation in one or many human organs.
Acute Toxic Effects	Toxic if ingested or inhaled. Avoid prolonged contact with this material. Overexposure may result in serious illness or death. Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening, or, occasionally, blistering.  Follow safe industrial hygiene practices and always wear proper protective equipment when handling this compound.

Emergency phone number (800) 424-9300

Section XII.	Ecological Information
Ecotoxicity	Not available.
Environmental Fate	Not available.

#### Section XIII. Disposal Considerations

Recycle to process, if possible. Consult your local regional authorities. You may be able to dissolve or mix material with a Waste Disposal combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. Observe all federal, state and local regulations when disposing of the substance.

# Section XIV. Transport Information **DOT Classification** DOT CLASS 6.1: Toxic material. UN2025 PIN Number Proper Shipping Name Mercury compound, solid, n.o.s. Packing Group (PG) **DOT Pictograms**

#### Section XV. Other Regulatory Information and Pictograms

TSCA Chemical Inventory

(EPA)

This compound is **ON** the EPA Toxic Substances Control Act (TSCA) inventory list.

WHMIS Classification (Canada)

CLASS D-1B: Material causing immediate and serious toxic effects (TOXIC).

On NDSL.

EINECS Number (EEC)

200-442-6

**EEC Risk Statements** 

R23/24/25- Toxic by inhalation, in contact with skin and if swallowed.

R50- Very toxic to aquatic organisms.

R53- May cause long-term adverse effects in the aquatic environment.

R36/37/38- Irritating to eyes, respiratory system and skin.

Japanese Regulatory Data

Not available.

#### Section XVI. Other Information

Version 1.0 Validated on 7/29/2011. Printed 7/29/2011.

# **Notice to Reader**

TCI laboratory chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our MSDS sheets are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated MSDS sheets for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, facial mask, fume hood). For proper handling and disposal, always comply with federal, state, and local regulations.
