See section 2 for specific toxicological information for the ingredients of this product.

LD50 (Oral): N/A

LD50 (Dermal) : N/A

LC50 (Inhalation): N/A

Gastrointestinal absorption of PBBs varies according to the degree of bromination, the lower brominated compounds being more easily absorbed. Toxicology is affected by the number and position of the bromine atoms, as substitution in the ortho position hinders the rotation of the rings.
