| 4. FIRST AID MEASURES                                                          |                                                                                                                                                                                                                                                      |                    |         |
| Inhalation                                                                     | Remove to fresh air. If breathing is difficult give oxygen and seek medical attention.                                                                                                                                                               |                    |         |
| Eye Contact                                                                    | Flush with copious amounts of water for at least 15 minutes. If irritation persists, seek medical attention.                                                                                                                                         |                    |         |
| Skin Contact                                                                   | Remove contaminated clothing. Wash affected area with soap and water. Rinse thoroughly. If irritation persists or other symptoms are observed, seek medical advice.                                                                                  |                    |         |
| Ingestion                                                                      | Rinse out mouth and drink lots of water. Seek urgent medical attention and show physician the container details.                                                                                                                                     |                    |         |
| 5. FIRE FIGHTING MEASURES                                                      |                                                                                                                                                                                                                                                      |                    |         |
| Extinguishing Medium                                                           | Use fire fighting measures which suit the environment and take into account other materials which may be involved. In general, water-based extinguishers should not be used for fires involving organic materials. Use carbon dioxide or dry powder. |                    |         |
| Protective Equipment                                                           | Wear self-contained breathing apparatus and protective clothing.                                                                                                                                                                                     |                    |         |
| Hazardous Products of Combustion may include: carbon monoxide, carbon dioxide. |                                                                                                                                                                                                                                                      |                    |         |
| 6. ACCIDENTAL RELEASE MEASURES                                                 |                                                                                                                                                                                                                                                      |                    |         |
| Personal Protection                                                            | Avoid inhalation or contact of spilled material with skin or clothing. Wear protective equipment including rubber gloves, and eye protection. Keep unprotected persons away.                                                                         |                    |         |
| Environmental Protection                                                       | Take precautions to ensure product does not contaminate the ground or enter the drainage system.                                                                                                                                                     |                    |         |
| Collection                                                                     | Mix with vermiculite or proprietary absorbent material and transfer to sealed containers for disposal.                                                                                                                                               |                    |         |
| 7. HANDLING AND STORAGE                                                        |                                                                                                                                                                                                                                                      |                    |         |
| Handling                                                                       | Chemicals should be used only by those trained in handling potentially hazardous materials. Rubber gloves, eye protection and protective clothing should be worn. Operations should be carried out in an efficient fume hood or equivalent system.   |                    |         |
| Storage                                                                        | Store in tightly sealed containers in a cool place.<br>Protect from moisture.                                                                                                                                                                        |                    |         |
